

Dear Sir or Madam,

The RespiceSME consortium invites you to join the **workshop “Aligning Education with Innovation”** on the **28th of June 2017 from 13:00-18:00** at the Laser World of Photonics Congress in Munich (<http://www.world-of-photonics.com>).

The goal of the workshop is to analyse the challenges for improving the curricula of photonics courses and therewith, the educational offer in photonics (and related subjects) for students. Furthermore, it will be discussed and shown what tools and measures can be used in order to better scope the requirements of the industry (in particular SMEs) for improving and updating the curricula of physics / photonics courses.

Are you interested in participating? Please check the **programme** of the event <http://www.respice-sme.eu/downloads-links/> and register under the link below!

We would like to offer you the possibility to company/institute representatives who offer jobs or internships to (PhD) students, discuss and network with them during the matchmaking session following the presentations.

For the job matchmaking, please send your Curriculum Vitae to **Petra Bindig** (petra@photonicsweden.org) until the **20th of June at the latest!**

Registration is free of charge!! Please register until the **20th of June at the latest!**
https://dinkurs.se/appliance/?event_id=45083

We look forward to receiving your job/internship offers and to welcoming you to our event.

Best regards,

The RespiceSME Consortium
